

Orestia

Eggplant

Description

This hybrid eggplant variety features a vigorous plant with strong growth and excellent leaf cover, providing reliable fruit protection. Fruits are semi-long, spineless, and highly uniform, measuring 23–24 cm in length and 6–7 cm in diameter. They have a deep glossy black colour with firm flesh and excellent market appeal. Short internodes support high productivity, making this variety ideal for spring–summer cultivation in tunnel houses.

Type

Hybrid

Cultivation Method

Greenhouse

Maturity from Transplant

12 - 15 weeks

Plant height

100 - 160cm

Fruit Size

23 x 7cm

Fruit Shape

Tear Drop
