

Brolga

Melon

Description

The Brolga is a hybrid rockmelon of the Harper type, widely grown for its high market yield and exceptional sweetness. It is highly favored by commercial growers for its reliable performance in Australian climates.

Strong plant type with excellent early seedling vigor and a highly concentrated fruit set, which means many melons ripen around the same time.

Thick, juicy orange flesh with an exceptionally high sugar content, with an average Brix rating of 14% (making it notably sweet and flavorful).

High resistance to Fusarium Wilt (races 1 and 2).

Species

Rockmelon

Type

Hybrid

Maturity from sowing

12 - 16 weeks

Fruit Shape

Round / Oval

Weight

2.4 - 2.8kg

Skin

Dense netted

Internal Colour

Orange

Pack Size

2,500 / 5,000 / 10,000 seeds
