

Sylviana

Tomato

Description

Sylviana is a very flexible, high production trellised type variety for greenhouse and net house production. A vigorous strong growing indeterminate plant habit, combined with excellent setting ability, gives a high yielding capacity. Sylviana is a reliable variety and is suitable for use in long crops and for cultivation in non-heated greenhouses.

Uniform medium to large sized fruit with extended shelf life. Fruit size maintained evenly up the vine.

NB: Fertiliser applications and amounts need to be considered.
